

CEDRICK ESPIRITU

Software Engineer | Multimedia Designer

📞 09853823940 ✉ cedrickespiritu070@gmail.com 🔗 linkedin 🐙 GitHub 🌐 Website 📍 Batangas, Philippines

Leveraging a dual background in Software Development and Multimedia Arts. Expert in architecting digital solutions with **React**, **React Native**, **Laravel**, **Supabase**, and **AWS** ecosystems. I handle the entire product lifecycle — from initial **Figma** prototyping and brand identity to production-ready deployment on iOS, Android, Web, and cloud-native serverless infrastructure.

WORK EXPERIENCES

Software Engineer | Full-time

Divine Software Systems LLC

Sep 2024 - Mar 2026

Hybrid • Fremont, California & Quezon City, Philippines

- **Set up development environments**, repositories, and workflows as the company's first technical hire — enabling a team of 4 engineers to collaborate across 5+ concurrent client projects
- **Developed web apps** using **React.js**, **TypeScript**, **Tailwind CSS**, **Vite**, and **REST APIs**
- **Built and shipped 12+** cross-platform mobile apps to both App Store and Google Play using **React Native**, **Expo**, **TypeScript**, **Supabase**, and **NativeWind**
- **Conducted UAT and submitted 5+ apps** to App Store and Google Play, managing full release cycles across both platforms
- **Delivered end-to-end solutions** from planning, design, development, to presentation
- **Architected secure payment processing workflows** using **Stripe API** with automated order fulfillment via **Webhooks** and real-time data sync with **Supabase** databases

Technologies / Skills Used : *React.js, TypeScript, Vite, REST APIs, Expo, Supabase, Stripe API, Webhooks*

Jr. Laravel Website Developer | Full-time

Simply Be Found

Aug 2023 - Aug 2024

On-site • Colorado, USA

- **Developed 3 responsive websites** for digital marketing clients across Colorado using **HTML**, **CSS**, **JavaScript**, and **PHP** (**Laravel**)
- **Collaborated using GitHub** for version control and team integration
- **Built 12 reusable components**, reducing development time for recurring campaign builds

Technologies / Skills Used : *HTML, CSS, JavaScript, PHP, Laravel*

Multimedia Designer | Full-time

Corner Route Lipa

Jul 2020 - Aug 2023

Hybrid • Lipa Batangas

- **Produced 70+ digital and print marketing materials** over 3 years, including tarpaulins and signage
- **Designed layouts across 5+ material types**, social media graphics, menus, flyers, brochures, and tarpaulins, using Photoshop, Illustrator, and InDesign
- **Drove up to 200% sales increases** through 3+ annual promo poster campaigns

Technologies / Skills Used : *Adobe Photoshop, Illustrator, InDesign*

Freelance Graphic Designer | Freelance

Freelance

Mar 2019 - Jul 2020

Hybrid • Batangas PH

- Designed branding materials for 10+ clients over 1.5 years, including logos, website graphics, and marketing materials
- Developed branding concepts and visual identities

Technologies / Skills Used : *Photoshop, Illustrator*

PROJECTS

MetroSevn — Full-stack Ecommerce Platform (AWS-Native Migration) | 🐙 Github

Software Developer and UI/UX Designer

- **Migrated entire ecommerce infrastructure** from **Supabase** to **AWS-native services**: **Lambda**, **RDS PostgreSQL**, **S3**, **CloudFront**, **Cognito**, **API Gateway**, and **Amplify**
- **Architected dual-Lambda serverless backend** — VPC-attached **Lambda** for private RDS access, separate public **Lambda** for TikTok Shop OAuth and external API integration
- **Implemented hybrid JWT verification** (HS256 Supabase / RS256 Cognito) enabling zero-downtime migration without forcing user re-authentication
- **Integrated TikTok Shop API** with custom HMAC-SHA256 signed requests and on-demand settlement sync with RDS caching fallback
- **Provisioned all infrastructure** via Serverless Framework and parameterized CloudFormation stacks (RDS, Cognito, S3/CloudFront)
- **Secured product image delivery** using CloudFront with S3 Origin Access Control (OAC) and immutable 1-year cache headers

Technologies / Tools Used : *AWS, Lambda, RDS PostgreSQL, S3, CloudFront, Cognito, API Gateway, Amplify*

PROJECTS

Parish Connect Apps (11 Mobile & Admin Systems)

Software Engineer

- Developed 12 whitelabeled parish applications, each with a dedicated admin panel and mobile app (Android & iOS)
- Implemented 5+ role-based permission levels customized per ministry requirements
- Reached 700+ installs across App Store and Google Play
- Built using React Native, Expo, TypeScript, Supabase, PostgreSQL

Technologies / Tools Used : React Native, Expo, TypeScript, Supabase, PostgreSQL

RFV Allianz System (Finance & Operations Platform)

Software Engineer

- **Designed and developed 4+ operational modules** covering purchase orders, sales, delivery tracking, and asset movement
- **Created 5+ real-time inventory** and reporting dashboards used by 20+ users across accounting and sales departments
- **Built scalable REST API architecture** handling multi-department data across 4+ operational modules

Technologies / Tools Used : REST APIs, React, Node.js, Supabase, Turborepo

PERA Operations Module (Fuel Inventory System)

Lead Developer

- **Built end-to-end operations module** for fuel inventory management
- **Implemented purchase orders**, item receipts, pricing management, and asset transfer tracking
- **Developed dashboard** for real-time inventory insights

Technologies / Tools Used : React, Node.js, Supabase, Expo, Turborepo

CFO Dashboard (Sales & Performance Analytics)

Lead Developer

- **Developed KPI dashboards** and reporting tools for executive-level decision making
- **Implemented sales tracking**, product mix analysis, and target vs actual reporting
- **Integrated CSV imports** and data visualization features

Technologies / Tools Used : React, Node.js, Supabase, Turborepo, Figma

SKILLS

Databases :	PostgreSQL
Frameworks & Libraries :	React, React Native, Laravel, Expo, Tailwind CSS, Vite
Languages :	English, Tagalog
Programming Languages :	JavaScript, TypeScript, PHP
Soft Skills :	Communication, Teamwork, Problem Solving, Critical Thinking, Adaptability
Tools & Platforms :	Figma, Photoshop, Illustrator, InDesign, Node.js, Express, Supabase, REST APIs, Stripe API, AWS

EDUCATIONS

University of Batangas – Lipa Campus Lipa City	2020 - 2024
Bachelor of Multimedia Arts	CGPA : 1.77

- Cum Laude

Asian Institute of Computer Studies Lipa	2018 - 2020
Information and Communication Technology	CGPA : 96

- **Best in Thesis - Resume QR Code Generator**
- **Leadership Awardee**

AWARDS & ACHIEVEMENTS

- **Cum Laude** – University of Batangas Lipa City (2024)
- **Leadership Award** – AICS Lipa (2020)
